

# Saarinen

## Coffee and Side Tables

'New structural materials, new uses,  
a new spirit for our age'

Eero Saarinen

Eero Saarinen is a giant of 20th Century design and architecture, but it is the Tulip Tables designed for Knoll for which he is usually remembered.

The range is available in white laminate and five marble finishes with a white or black Rilsan coated base.

The polyester coat on the marble ensures that the marble remains pristine for many years, whilst the Rilsan coat on the cast aluminium bases is one of the most durable coatings available.

Heights vary slightly depending on finish
