BESPOKE FURNITURE

HAND MADE

Every element of AEGIS furniture is assembled and finished by hand including the metal plating, the sanding down of any welding marks and the arduous threading of the steel wire.

There is a lot of love and pride in the making of these beautiful pieces. The results: impeccable quality and a seamless finish.

Eternal Elegance is at the core of the design of AEGIS furniture; to be a future icon and timeless.

ITALIAN MASTERS

Designed in London, made in Italy. All materials and components are sourced in Italy. The pieces are produced by a family of metal artisans that have been perfecting their craft for generations.

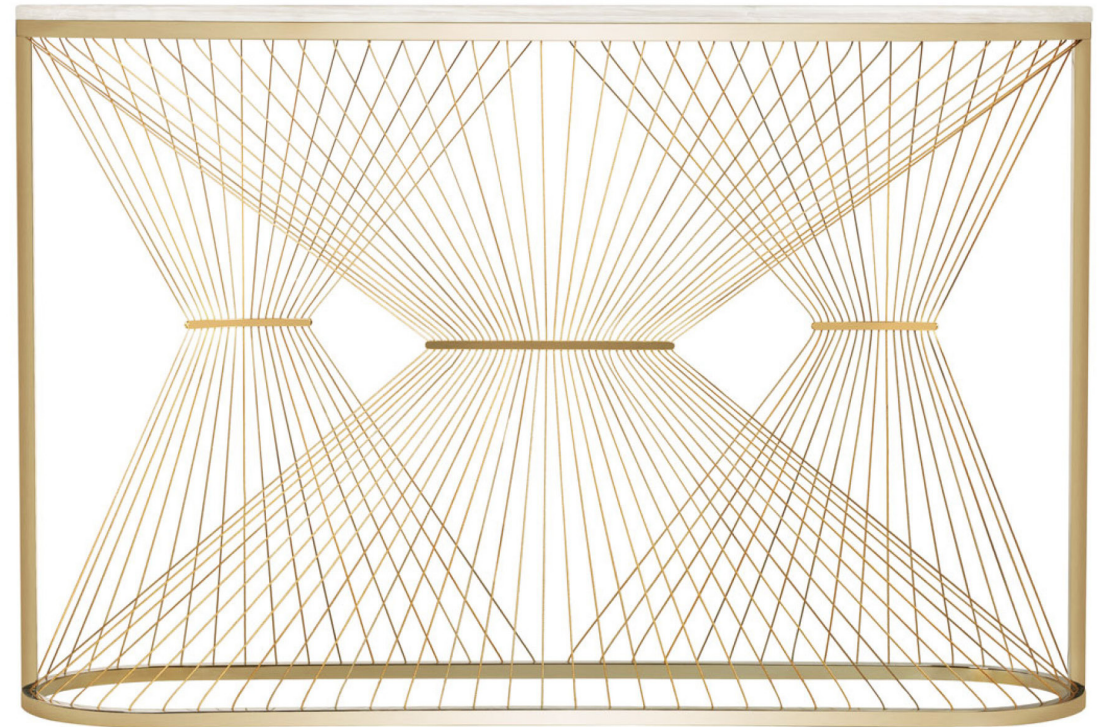

The team pride themselves on working well with designers and architects to realise projects above and beyond expectations. Constantly looking to the future they research and develop cutting edge techniques. But most of all they are dedicated to their craft. Their home is to be found in a beautiful town near Amalfi.

synonyms: protection, shelter, patronage, sponsorship, backing, umbrella...

CONCEPT

The concept in its simplest form, is a bird cage being pried open by two fingers. Is the metaphorical bird better protected by being inside the cage or let loose into the world. The cage being representative of today's culture and the entrapment one feels by following social expectations. The bending of the wires and setting the bird free representing empowerment and the release of ideas and creativity. The lightness of the design also reflects this weight being lifted.
